RAILROAD AFFAIRS.

Villard's Uncertain Hold on the Northern Pacific.

CHICAGO, October 10.—Arrangements will probably be made to continue Villard as President of the Northern Pacific for another year, although strong objections are made to him by Drexel, Morgan & Co., bankers, who made it at first a condition that if the syndicate took up the $20,000,000 second mortgage bonds, Villard should resign, and A. J. Cassett, Vice-President of the Pennsylvania Central, be appointed.

HUNTINGTON DENIED BY THE PRESIDENT.

CHICAGO, Oct. 19.—A Washington special says that C. P. Huntington called on the President last night in relation to the appointment of a commissioner to examine and report upon the completion of the Southern Pacific Road from Fort Wayne to El Paso. An authentic report to-night is that Huntington's mission was not successful, the President hesitating to assume the responsibility of appointing a commissioner, which would in effect amount to an executive decison that the Southern Pacific is a land grant road. The result of this will be to lay the whole case before Congress, which it is understood the President has decided to do, without special recommendation.

WOMEN OF UTAH.

Their Terribly Degraded Condition Graphically Portrayed.

CHICAGO, October 19.—At the Women's Congress Mrs. Jennie E. Fraistelh, of Utah, read a paper on the women of Utah. She said that the women of America did not begin to know the extent and terribleness of the degradation of the women in that Territory. Where polygamy held sway they seemed to carry about with them a mark like that of Cain. The women were made to believe that they were inferior to man and that their only hope of Heaven was to go in as a satellite of man. Their only hope of immortality was to be married to some man that they might be raised from the dead. Mormons thought no more of taking additional wives than they did of buying cows. Men were commanded to beat their wives if they rebelled against polygamy, and that it were better to crucify the body than let the soul go to destruction.

PACIFIC COAST.

Compliments in Court—Arrested for Fraud.

SAN FRANCISCO, Oct. 19.—The case of Mrs. Eusebia Fitzgerald against the estate of the late General William Irvine for $2,500, claimed by her to have been loaned to the General during his lifetime, has been decided against her. The close of the argument was enlivened by the counsel for plaintiff denouncing one of the lawyers for the defense as a robber, liar and perjurer. The defense responded by saying that plaintiff's witnesses were of no better calling than perjurers and liars.

Edward Hyams, against whom a judgment for $78,000 was obtained a few days ago by Shainwald & Co., was arrested yesterday evening at Elko, Nev., Shainwald having sworn out a complaint that Hyams was fraudulently carrying away his property to cheat his creditors.

SAN QUENTIN AND FOLSOM PRISONS.

SAN FRANCISCO, Oct. 19.—The Examiner says it is understood that John Foley will be elected Commissary of San Quentin by the Directors, and that McAllister will be appointed Captain of the Yard. John McComb will probably be retained as Warden of Folsom prison, but Democrats will be appointed to the other positions.

EARTHQUAKE AND CHOLERA.

Two Hundred Deaths by Earthquake in the Grecian Archipelago.

CONSTANTINOPLE, Oct. 18.—Among the villages destroyed by earthquakes in the Grecian Archipelago, was Katopanoya, Reis-De-Re and Lidia. Slight shocks are still felt on the Island of Chios. The British Admiral sent assistance to Chesme and Chios. Another dispatch says it is believed that only 200 deaths were caused by the earthquake.

THE EARTH LITERALLY SWALLOWED UP HOUSES AND PEOPLE.

ATHENS, Oct. 19.—The Government has sent two ships to the Grecian Archipelago with supplies for the sufferers by the earthquake. One thousand two hundred and ten bodies were recovered near Chesme, in Anatome. The earth near Atlatea literally swallowed up houses and people.

CHOLERA'S WORK NEAR ALEXANDRIA.

ALEXANDRIA, Oct. 19.—The village in which the cholera has broken out escaped the epidemic. The reappearance of the disease is attributed to the infilteration of a canal running through the village of water from the cemeteries in which cholera victims were interred.

THE TURF.

Jay-Eye-See and Other Flyers at the Chicago Driving Park.

CHICAGO, Oct. 19.—The Chicago Driving Park management announces an extra day for next Tuesday, with unusual attractions. The first event will be a free-for-all trot for a purse of one thousand dollars, in which Phallis, Monroe Chief, Wilson and Fannie Weatherspoon will take part. Following this will be the attempt of Jay-Eye-See, for a purse of $500, to beat the best trotting record, 2:10¼, by Maud S. Jay-Eye-See is said to be in the best possible condition, and as his owner is particularly anxious to have him reduce his record before the season closes, it is believed, with a good day and track, he will be able to do it, as his present record is but half a second slower than that of Maud S. The day's sport will conclude with an attempt on the part of the great pacer Johnston, record 2:10, to beat the three heats, 2:11¾, 2:11¾, 2:12½, made by Commodore Nickson's Little Brown Jug, which stands as the best three heats on record. The sale of Johnston to Commodore Nickson has been erroneously announced. The completion of the transaction depends on the success or failure of this trial.

Santa Cruz Races.

SANTA CRUZ, Cal., Oct. 19.—Santa Cruz Belle won the final heat this afternoon of the race which was postponed from yesterday. Time, 2:48. A race for a purse of $150, between Chicago, Sorrel Dan and Amenia, followed. The first two heats were taken by Sorrel Dan in 2:41, 2:42. Chicago won the next three and the race, in 2:41½, 2:44¼ and 2:39¼.

A Fast Little Horse.

CHICAGO, Oct. 19.—A Tribune's New York special of October 18th, says: A little horse, heretofore practically unknown, trotted two heats to-day with running mate, the first heat in 2:16, the second in 2:11. The horse was formerly from Boston and is named Francis.

Reduction in the National Note Circulation.

WASHINGTON, Oct. 19.—Comptroller Knox states that the reduction in the circulation the current year will be between $20,000,000 and $25,000,000. There will certainly be a much more rapid decrease next year.

SAN FRANCISCO.

A Defeated Nevada Candidate Sues a Newspaper for Libel,

And is Thrown Out of Court—Railroad Commission Business—Carpenter as a Rate Reductionist—Jurisdiction Over Steamers Plying Off Shore.

SAN FRANCISCO, Oct. 19.—George Ernst, who ran for the Attorney Generalship of Nevada on the Democratic ticket in 1881, and was defeated, brought an action against the Evening Post for libel, with fifty thousand dollars damages, claiming that his defeat was largely due, if not entirely so, to an article published in that paper reflecting on the plaintiff's previous public acts. He was non-suited to-day on appeal. Judge Rearden decided the case, sustaining the demurrer, the decision being chiefly based on the fact that a mere inference is not sufficient to entitle plaintiff to any cause of action.

SAN FRANCISCO, Oct. 19.—At a meeting of the Railroad Commission this morning, a communication was read from Controller Dunn regarding attorney's fees in the case of the Pacific Coast Steamship Company versus the old board of Railroad Commissioners. They had agreed to pay Belcher & Belcher one thousand dollars, Chipman & Garter one thousand dollars and Clitus Barbour five hundred dollars, as fees to defend the Commission in the U. S. Circuit Court.

Judge Field recently decided a case to the effect that the State had no power to regulate fares and freights of steamers plying three miles out from land. The Railroad Commissioners contended that its attorneys were bound to prosecute the case to a final termination, meaning the U. S. Supreme Court. Governor Stoneman, a member of the old board, being consulted, said he also so understood it. Commissioner Foote stated that the attorneys refused to proceed further without additional fees. On motion of Carpenter the lawyers will be requested to advise the board how to proceed, and if the decision of Judge Field is conclusive. Carpenter offered orders for a reduction of thirty-five per cent. on present rates on all cereals from San Francisco, Port Costa, Stockton and Sacramento to all other points, and between the same of twenty-five per cent. on flour and ground grain of all kinds from, to, and between the same points. Other reductions, averaging twenty per cent., are proposed, mainly on farming implements, grain sacks, etc.

FAILURE OF A LIFE-BOAT EXPERIMENT.

SAN FRANCISCO, Oct. 19.—The life-boat exercises this morning on ocean beach, Pacific ocean, were a great failure. When about three hundred yards from shore, a life-boat capsized. The men in cork jackets reached the land safely, but Captain Ellis, in command, to whose carelessness the accident is attributed, was with difficulty rescued. The boat was left at the mercy of the waves. About five hundred spectators were present.

A FRESH CASE OF YELLOW FEVER ARRIVES.

SAN FRANCISCO, Oct. 19.—Pacific mail steamship Granada, which arrived to-day from Panama, brought one case of yellow fever, Christina Monica, a native of Switzerland. The captain says it is impossible to understand how the case was developed, as the steamer did not stop at any Mexican ports except Mazatlan and only there to take on the mails which were thoroughly fumigated. The vessel has seventeen cabin passengers and fifty-nine steerage. The steamer has been placed in quarantine.

THROUGH BY THE NEW ROUTE.

Running of Trains and Sleepers Between St. Louis and San Francisco.

ST. LOUIS, Oct. 19.—The time of departure of the first through train from St. Louis to San Francisco by the new southern route via St. Louis and San Francisco, Atchison, Topeka and Santa Fe, Atlantic and Pacific, and Southern Pacific roads, has been slighly changed, and the first through sleeper leaves here to-morrow (Saturday) night instead of Sunday, 21st, as previously announced. A through sleeper for the East leaves San Francisco at the same time. A through sleeper also leaves Kansas City for San Francisco on Sunday morning instead of Monday.

GENERAL DOMESTIC NEWS.

Status of the Railroad Strike in Illinois.

ST. LOUIS, Oct. 19.—The latest information regarding the strike is that railroad managers will not take back the strikers; that there is a fair force of men working in all the yards; that trains are moving reasonably well, and everything will be running as usual in a day or two.

Nelling, the Murderer.

LAFAYETTE, Oct. 19.—The Sheriff is unwilling to take charge of Nelling, the murderer of Ada Atkinson, and his removal to some other jail during the night may be expected. He intends to plead insanity, and boasts that he has many friends.

Death of a Prominent Union Officer.

TOLEDO, Oct. 19.—General Jas. B. Steedman died this afternoon of pneumonia, after a protracted illness. Deceased was a prominent officer during the rebellion, and was made a Major General for conspicuous bravery at Chickamauga.

Mormon Lawyers Alarmed.

SALT LAKE, Oct. 19.—The bar of Salt Lake are considerably agitated over the report that the President has proposed appointing Sumner Howard Chief Justice of Utah, in place of Hunter, whose term expired last July. Howard was formerly United States District Attorney of Utah and secured the conviction of John D. Lee, of Mountain Meadow notoriety. He is a resident of Michigan, and was Speaker of the House in that State last winter.

Tammany Uppermost Again.

NEW YORK, Oct. 19.—The Times says of the County Democracy and its surrender: "Tammany Hall is once more undisputed master of New York." The Tribune says: "The Citizens' Committee has probably destroyed any chance there may have been for a union on local officers against Tammany. It has been abandoned. Its Democratic chairman, Condict, had previously paid a visit to Albany. This committee might as well have been dishonest as stupid, and its needless disagreement with the Republicans was either stupid or dishonest."

Consecration of Dr. Potter.

NEW YORK, Oct. 19.—The consecration of Dr. Potter as assistant Bishop of the diocese of New York, in Grace church to-morrow, is expected to be the most imposing ceremony of the church in this country. It is expected that forty-five bishops will be present. Provision has been made for about 500 clergymen.

The Slayer of Dr. Glenn.

COLUSA, Oct. 19.—The prosecution in the Miller case closed its testimony to-day. The only new evidence was that of Al Gupton, who states that on the evening before the shooting he saw Miller standing near the wood-shed with the shotgun in his hand. When he approached him Miller said, "I suppose you heard that Glenn horse-whipped me. I have got both barrels of the gun loaded with buckshot for his benefit."

MANGLED ON THE RAIL.

Two Brakemen Badly Hurt and a Train Wrecked at Benson.

Special Dispatch to the TIMES.]

TUCSON, Oct. 19.—Emigrant train No. 21, which left here yesterday noon, met with an accident last night at Benson, resulting in two brakemen being severely injured. The train consisted of twenty-seven cars, including prssenger sleeper, and had two locomotives. Beyond Benson about a quarter of a mile is a coal yard and section house; they stand on a hill. To ascend the hill the trains have been accustomed to get up a pretty good speed. Last night some one left a switch open in the coal yard, and as No. 21 ran up the hill she took the open switch. The train instantly ditched. The section house, used to store tools, was completely demolished. Two brakemen, named Daily and Walker, were badly hurt. Daily's left leg is broken twice. He was placed in the hospital here. No passengers were hurt. The damage to the train was very great.

Col. A. P. Morrow, formerly of General Sherman's staff, will be tried here to-morrow by court-martial for drunkenness.

A SILVER SCREED.

"Public" Pounces on the Pacific States Prematurely.

SAN FRANCISCO, Oct. 19.—The Bulletin's New York special, quoting from Public on the silver problem, says: There is no hope for rational legislation about silver at the next session, while each party is striving for the fourteen votes of California, Nevada and Colorado. "What interest," it asks, "controls these States beyond the mining of silver? Nevada is a mere mining camp. It has elected Jones and Fair, Republican and Democrat, to the Senate, not caring what they are otherwise, so long as they have mines of silver. Colorado produces more than twice as much silver as any other State or territory, and its representative, Bedford, openly declares his intention to defeat the Republican party, if it ceases to protect silver mining. None of them seem to see that a sound metallic policy might be advantageous to the silver-producing interest.

Death of a Politician of the Tweed Regime.

NEW YORK, Oct. 19.—The announcement of the death of Gen. Augustus Funk last night created great surprise and sorrow among the Germans in this city. Funk was formerly proprietor of Irving Hall, and was a factor in Tammany Hall politics in Tweed's time.

Virginia Republicans for Blaine and Lincoln.

SAN FRANCISCO, Oct. 19.—A Chicago special says: At Norfolk, Virginia, yesterday, the Republican County Convention unanimously passed a resolution declaring Mr. Blaine their choice for President, and Secretary Lincoln for Vice-President. When the vote was taken the colored delegates rose in their seats and sent up cheer after cheer.

THROUGH ENGLISH EYES.

It is a gratifying fact that there are some intelligent and appreciative Englishmen now and then visiting America, who look upon us with unprejudiced eyes, and are willing to concede the greatness of American institutions, and give some time to the honest study of the genius of republican government. Such men are benefactors, not only to this country but to their own, for they are always ready to defend us against unreasoning prejudice and to dispassionately discriminate between the good and the evil which they may find in our republican form of government. At a dinner tendered to Lord Coleridge in New York on the eleventh instant, that gentleman showed himself to have been a close observer and student of American customs and policy. He spoke with authority of the state of the law in the two countries, and it may surprise Americans to learn that the "law's delay" is now greater here than in slow-moving England. He said that the chief glory of the United States is not its size, its wealth, or its rapidly increasing population, but "the independence and prosperity of the middle classes." He concluded by a sharp rebuke to snobs on both sides of the water, who would alter the organic character of our institutions in the direction of a more aristocratic society, saying "you have been advised to establish a monarchy, have a hereditary Senate, re-enact a primogeniture law, and make other radical changes in conformity to English forms. When I read these things I ask myself, what air can these men have breathed in America? What manner of Americans have they met? I am not blind to the greatness or the virtues of my own country, but what is best for us is not best for you, and vice versa."

A CHIVALROUS PUNISHMENT.

Griffin, Georgia, has been guilty of an act that is worthy of the general execration of the American public. The boasted chivalry of the South forgot itself when it ordered a woman to be placed in the chain-gang. The woman was guilty of drunkenness, and was sent to jail because she could not pay her fine; and later, when she refused to work when sent out with the gang upon the streets, she was chained to the tail of a dump cart, and with fettered feet, she was compelled to follow wherever the chain-gang led, a pitiful, outraged spectacle of degraded womanhood. But no matter how great her degradation, the so-called justice which compelled her to such punishment was infamous, and an outrage upon the civilization of the nineteenth century. Every better instinct of humanity revolts against it. The spectacle of that woman fettered to that chain-gang cart, and dragging her chains through the streets, was as degrading to the authorities who ordered it as to the woman who was their victim. It was an act in keeping with the cruelty of the whipping post and the slave mart of an extinct barbarism.

THE orange crop of Florida was about one-eighth larger this year than last, aggregating about fifty-six millions. But no matter how it may increase, it will not interfere with the market for California oranges, as our fruit ripens so much later, the Florida article is out of the market by the time that ours is ready for it. The California orange is rapidly winning a reputation for superiority, a reputation which may easily be sustained if our orange growers are careful to send away only the best of their productions, seeking no sale for those of inferior quality. This is the only wise policy.

IT is gratifying to see the prominent journals of the country and of the State taking a bold and decided stand against divorce. The moral nature of the country needs to be aroused to the monstrous enormity of the evils of the loose divorce systems of the United States. The tendency of an easy divorce law is towards licensed licentiousness and lewdness. This loose divorce system is only another form of the Mormon idea of polygamous rights, and is as demoralizing and bestial in its tendency. It is one of the worst blots upon American civilization.

THE San Francisco Chamber of Commerce has memorialized the proper authorities to establish on this coast a station of the Signal Service to receive local reports and make predictions of the weather of the coast. This good move should receive a second all 'long shore. Let Los Angeles rise in her place and speak out in meetin' for this enterprise.

THE Santa Barbara Independent is trying to boost the defunct State-division boom into life. Sometime—not now.

ONE of the Princess Louise's ladies, Miss Ina McNiell, writes from the Government House, Ottawa, to Mrs. Spence, of Santa Barbara, thanking her for a present of pampas grass sent to the Princess, and informing Mrs. Spence that the Princess "has carried about the pampas grass which you gave her when she was at Santa Barbara everywhere with her, and that both in Bermuda and Canada it has been immensely admired." Thus do the plumy products of Sunland capture royalty.

THE result of growing civilization is a larger humanity and the more generous dealing of nations with those in their power. This tendency is apparent in the land of the Nile, and is manifested by the clemency extended by the Khedive of Egypt towards his rebellious subjects. A general amnesty has been granted them, excepting only those who have been convicted of murder and outrage.

THE Rome, N. J., Sentinel, (Dem.) in speaking of next year's presidential contest, displays a wise, cautionary sagaciousness when it remarks:

But a year intervenes, and it is a long time to justify too much confidence. The opportunity is clearly with the Democrats, but it requires eternal vigilance to keep it with them in its original strength for twelve months.

JOHN KELLY, the New York boss, is said to be tired of politics. Let him give himself and his friends a rest.

A REDUCTION of 33⅓ per cent. in rents would be of great benefit to the people of Kansas City, and would not prove a loss to the owners of dwellings. When such reduction comes, as come it must at no distant day, there will be no empty houses. High rents are driving people into single rooms, and many have left the city altogether on account of inability to meet the exorbitant demands of landlords.—[Kansas City Journal.

We do not think it necessary to assert that these remarks apply with full force to Los Angeles.

GENERAL JAMES B. STEEDMAN, of Ohio, is dead. He was a gallant and patriotic officer of the Union army during the war of the rebellion, and won distinguished honors for hard service in the field, successively as a brigade and division commander in the Southwest.

MEN AND WOMEN.

Herr Liszt has thirty-two pupils, whom he sees at his house in Weimer twice a week.

General Hancock is improving and the New York papers say his appetite is excellent.

Hon. Horace F. Page visited Santa Cruz and Monterey last week for the first time in his life.

Bob Toombs says Absalom was a dude. Its ancient origin, then, probably accounts for the degeneration in the species.

Noah Webster just one hundred years ago published his first spelling-book, and six million copies of the book are still in use. Among the numerous changes and improvements, this is a long time for one school book to hold its place.

Of the late Mr. Sheahan of the Chicago Tribune, an old newspaper man of that city says in the Inter-Ocean: "It was great fun to see or hear him and Medill get up an editorial. Sheahan would walk into Medill's room and break the silence by an ejaculation as to cheese. He would thunder at Medill to the effect that cheese wasn't appreciated—it was better than meat—more sustaining, more nutritious—went further and lasted longer. Medill would acquiesce cautiously, and the two old men would proceed to go over an editorial on the subject. 'Nothing better for lunch,' Sheahan would shout, 'than bread and cheese'—and 'a glass of beer,' Medill would suggest or 'a bottle of wine,' from Sheahan, and the two would rub their knees and face each other and laugh in anticipation as they insisted at the tops of their voices that such a lunch was better and brainier than a dinner at the Palmer House. Then as Sheahan would get on his feet in an absorbed sort of a way, Medill would say encouragingly, 'You do that, Sheahan.' And so it was day after day, except when Medill was absent, and then, without anybody understanding just how it was done, Sheahan's hand was found just where Medill's hand would have been."

POLITICAL POINTS.

There is nothing more melancholy than to compare post-mortem election results with ante-mortem predictions. Take this, from the Commercial-Gazette of Tuesday, and compare it with the election returns from Cuyahoga county:

A private dispatch was received yesterday from one of the best informed Republicans in Cleveland, stating that the Republicans would elect their State and county tickets by twenty-five hundred majority. Good enough.

The only man who can truthfully say "I told you so" this year, is the man who said with profane emphasis, "I don't know a —— thing about it."—[Toledo Telegram.

While the Democrats are rejoicing over their victory in Ohio, Republicans may derive consolation from the reflection that a Democratic Legislature always insures a Republican victory. It is better to lose the State this year than in the Presidential contest next year.—[Toledo Telegram.

And now everybody is trying to account for it. What is the use? When a man is blown up and finds himself in the river half a mile off, what difference does it make how he got there?—[Toledo Telegram.

The Sewage of the City.

To the Editor of the Times—SIR: Los Angeles, like many other cities, has encountered difficulties, and been burdened with expenses in its efforts to dispose of its sewage so as neither to offend the eye or the olfactory nerves of visitors, nor endanger the health of its inhabitants.

For some time the sewage was run over the land on the line of Los Angeles street and north of Ogier lane, where it became a great nuisance. After long suffering by residents in that neighborhood it was carried at considerable cost to a point near Seventh street, where it was suffered to spread over the land, or to be used by Chinese gardeners for the irrigation of the ground upon which lettuce, radishes and other kitchen vegetables were grown for the tables of the good-livers of this city. This locality soon became such a stench in the nostrils of those living in that vicinity that their complaints were loud and unceasing, until, at a still greater cost to the city, the sewer was continued southerly to Washington street, near which the sewage has been let out of the sewer and spread over the land until that neighborhood now demands its removal.

It is said that there are two propositions now under consideration for another extension of the sewer so as to carry the sewage still further on beyond the limits of the city.

One proposal is to continue a sewer from its present terminus, which is near Washington street, and about midway between San Pedro and Alameda streets, on a line diagonally to Washington street, to, and across the southern line of the city at or near the intersection of Alameda and Jefferson streets, and there, in the Vernon district, use the sewage for the fertilization and irrigation of the surrounding land.

This plan it is said can be carried into effect at a cost to the city of four thousand dollars.

The other proposal is to continue the present sewer easterly along Washington street to or near the west line of the established river-way, from which point responsible parties will construct a sewer southerly and in the vicinity of the river-way, a distance of not less than four miles, where the sewage will be utilized.

It is said that this last proposition can be carried into effect at a cost to the city of a sum not exceeding ten thousand dollars, and probably not exceeding eight thousand.

The first mentioned plan is objected to on the ground that wherever the sewage has heretofore been suffered to run upon and spread over the surface of the ground, or to be used for irrigation within the city limits, it has soon become a nuisance, and that the same result will take place if the sewage is used upon the land bordering Jefferson street.

The growth of the city within the past two years has been such that if it should continue for a few years to come in like manner, which it is believed will be the case, Jefferson street will be the residence and home of many families.

It cannot be denied that nuisances such as the outlet of the sewer has invariably caused, have a deleterious effect upon the health of those who are exposed to their influence. If this sewage is emptied out upon the surface of land kept moist by irrigation, it must necessarily breed disease in that neighborhood, if inhabited, and it will be but a few years before another removal will be demanded.

If the other proposition should be adopted the sewer will be eight feet below the surface of the ground at the point where it leaves Washington street and turns southerly along the line of the river way, and will not approach the surface of the ground until it has reached a distance of two miles or more from the south line of the city.

By carrying the outlet of the sewer four miles beyond the city limits the prospects of another removal (if it should eventually become necessary) is carried into a distant future.

The saving of a few, say four or six thousand dollars should not enter into consideration by the city authorities while providing for the abatement of the present sewage nuisance.

If by the additional expenditure of a few thousand dollars at this time this sewage nuisance, and the oft-recurring removal of the outlet of the sewer, can be relegated to the distant and unknown future, it should be expended, and the expenditure will meet the hearty approbation of all the good citizens of Los Angeles. CIT.

The expert employed by the Regents of the State University to examine the books of the Secretary, Land Agent and Treasurer, reports an error of $500 in the interest account of the Sierra Flume and Lumber Company, and the attorney has been instructed to collect the amount.

San Francisco Produce Market.

Revised Daily for the Times.

SAN FRANCISCO, Oct. 17.

FLOUR—City extras are jobbing at $5 37½@$5 50; city superfine, $4 00@$4 50; interior brands, $4 50@$5 00 for extra, and $3 00@$4 00 for superfine.

WHEAT—There is a good market for No. 1, notwithstanding the unfavorable condition of affairs abroad, and the market in the country is better than here, for the reason, probably, that farmers realize that the stock of good Wheat is none too large and are not inclined to sell. Shipping is quotable at $1 67½@$1 71¼, and extra choice at $1 72½.

BARLEY—The ideas of both buyers and sellers seemed pretty well advanced yesterday morning, and the arrival of 11,592 sacks produced no perceptible effect. Feed sold by sample at $1 02½@$1 05 for bright bay, and 97½@$1 for dark coast. Brewing was quiet at $1 07½@$1 10, and chevalier ditto at 95c@$1 05 for coast and $1 35@1 50 for good to choice bay.

CORN—Very dull at $1 50 for good white or yellow. Small sales at the quotation. Nebraska, $1 45.

HAY—Wheat, $10@12 50; wild oat, $10@12 50; barley, $10@11; stable, $10@12; cow, $9@10; alfalfa, $7@8 ₩ ton.

BEANS—Wholesale lots sell as follows: California Bayos, $3 25@$3 30; Pea and Small White, $2 75@$2 87½; Pink, $3 20@3 30; Red, $3; Limas, $3 75; Butter, $3 00@$3 10 ₩ ctl.

POTATOES—Receipts yesterday were 6,389 sacks. The market was quiet with no materia change. Tomales, 60c@70c; Jersey Blues, 60@ 70c; Early Rose, 50@55c; River Reds, 60@65c; Garnet Chiles, 80@85c; Peerless, 80@85c; Sweets, $1 50 ₩ ctl.

BUTTER—As the wet season draws nearer, buyers hold off and sellers are inclined to make concessions to sell. The market is weak and well stocked. Fancy, 45c; good to choice roll, 40@42½c; fair, 35@37½c; pickled roll, 26@ 28c; firkin, 25@26c; western, 16@22c ₩ lb.

POULTRY—Receipts are light and the market firm. Live Turkeys, 18c ₩ lb. Gobblers, 20@22c; Hens, 19@22c. Geese, ₩ pair, $1 75@ $2 25; Ducks, ₩ dozen, $7@8 50; Hens, $5 50@6 50; Roosters, young, $5 50@7 00; do old, $5 50@6 00; Broilers, $4@5, according to size.

GAME—Firm with a good demand. DOMESTIC FRUIT—Grapes continue in free supply and weak. Quinces $1 25@$1 50 ₩ box. Grapes, 50c@60 for Sweetwater and other small white kinds; 50@65c for Rose of Peru, Black Hamburg and Malvoise; 60c@75c for Tokay; 50c@$1 for Isabella; 50@75c for Verdella and 50@60c ₩ box for Muscats and Malagas; Wine Grapes, $20@$30 ₩ ton; Plums, 2½c ₩ lb; Apples, ₩ box, 40@75c for common to fair, $1@$1 50 for good to choice; Pears, 50c@$1 25 ₩ box.

A FLORIDA PRODUCT.

A Baby Alligator on Exhibition at the Cosmopolitan.

If any of our readers are prepared to deny the allegation, herewith made, and defy the alligator, they are politely requested to step up to the Cosmopolitan Hotel and do so. The train which arrived from the East last evening had on board an infant specimen of the genuine Florida alligator, which, on arrival, was presented to Capt. Jerry Long, of the Cosmopolitan, who is very fond of his new pet, the finest of the species, so far as is known, that has ever visited Los Angeles. The young saurian is about six inches in length, is as lively as a cricket, and disposed to be very sociable, running cheerfully up the arms of his new master when the opportunity is afforded. His home is in a bucket half filled with sand, and his manner indicates that he is well pleased with his new home and likely to live to a good old age. A full-grown Florida alligator measures from eight to eighteen feet in length, and when this gentleman attains his majority he will cease to be an attraction at the Cosmopolitan.

It is a season of general good health in the community.

Cutting Affray on First Street.

Last Thursday evening a cutting affray took place in K. Moesser's saloon on First street, at the corner of Rose. The man who used the knife was one G. H. Vosberg, who resides at 102 Rose street, and the men assailed were G. S. Prescott and Moesser, the keeper of the place. It seems that Preston was very much intoxicated and made some insulting remark to Vosberg, who immediately drew a knife and cut him three times about the head and shoulders. Moesser undertook to separate the men, when he also received a cut across the hand. The facts reached the police office yesterday, but as no complaint was made by the injured parties, no arrest was made. Moesser was so badly hurt that he is confined to his bed and has considerable fever.

The Acacia Social.

The Masonic Hall in McDonald block was filled last evening by an elegantly dressed throng of ladies and gentlemen, the occasion being the monthly social of Acacia Chapter, O. E. S. The evening was spent in dancing, one of the city bands furnishing the music. Despite some discomfort, owing to the limited capacity of the hall, a most enjoyable evening was passed. During the evening the guests partook of a bounteous repast prepared by the ladies of the society. Altogether it was a most delightful affair, and served to continue the high reputation which the social reunions have won in our city, and which always occasion and are looked forward to with so much pleasure.

Accident Yesterday.

As Mr. Hirschfeld, a man who lately came here with a band of horses for sale, was driving with a two-horse team in the vicinity of the Catholic cemetery, he met a funeral procession, and the waving banners in front so frightened his team that they plunged forward, got beyond his control, and finally upset the wagon in Mullally's brick-yard, smashing it up considerably. Mr. Hirschfeld was thrown out and badly, but not seriously, bruised. The horses broke loose and rushed from the brick-yard down Main street to Temple Block, where they were secured by officer Berry, and held to await their owner. The damage done to the wagon will amount to about $75.

The Fire Yesterday.

About 3 p. m. yesterday police officer Fonck came up Spring street and gave the information that a fire had broken out in Sonoratown. The alarm was hastily given and the engines were soon at the spot indicated, but before they arrived the fire had been put out. The blaze was only on the roof of an old shanty at the corner of Buena Vista and High streets, the roof having caught fire from sparks flying from the stove pipe. As there happened to be plenty of water near by a number of men speedily went to work as soon as the fire was seen and put it out before any serious [illegible]

Explanation of Phenomena Which Appeared about Los Angeles.

Signal Service Officer Collins informed a TIMES reporter last evening that the remarkable red lights seen just after sunset, for a night or two past, are scientifically termed zodiacal lighte, and pointed out in a late copy of the Monthly Weather Review, published by the Government at Washington, a record of the appearance of these lights in the United States. A scientific explanation of the zodiacal light is, that it is due to illuminated (partly, perhaps, self-luminous) matter surrounding the sun, in a very flat lenticular form, nearly coinciding with the plane of the ecliptic, or rather with the sun's equator, and extending to a distance from the sun greater than that of the earth, since its apex is often seen more than 90 degrees from the sun. It seems to have first been distinctly pointed out by Cassini, and was long regarded as the sun's atmosphere. The appearance of these lights in this section is very rare. There is a popular belief in the East that they are precursors of very wet weather.

A non-scientific explanation of the luminous sky, given by a gentleman who has just returned from the coast, is that it is caused by the sun's rays striking clouds of smoke rolling over from a point beyond the Santa Monica mountains, where an extensive fire is raging.

THE BUSY BEES.

How They Got in Their Work on San Gabriel Ranches.

Day before yesterday, several bee men, who have an apiary somewhere in the foothills of the Sierra Madre mountains, came to town to do their marketing, and just before they left procured a couple of hives of Italian bees, which they placed in the rear of their wagon and started for home. All went well for a time, when, in crossing an arroyo, the wagon gave a sudden lurch and out went both hives with such force that all the bees were instantly liberated. The captives had had plenty of time to nurse their wrath and they at once proceeded to make it warm for their would-be masters. They attacked them right and left and were particularly zealous in their attentions to the unfortunate horses, which were stung most unmercifully. One of the men got out of the wagon and ran for dear life, but the bees made good time after him and for two or three miles he found it impossible to stop for an instant,

Coming Excursionists.

Mr. Washburn, the real estate agent in this city, has received advices from his brother in the East that he is now on his way to California with a very large excursion, mainly gathered up in Iowa and other northern States. It will arrive here next Tuesday or Wednesday, and the members of the party are spoken of as being highly desirable acquisitions to Southern California. They are coming here with the intention of buying property and making homes for themselves in our sunny clime. The party travels in emigrant sleepers attached to the express train.

To Vernon Subscribers.

The subscription agent of the TIMES will shortly call upon subscribers in Vernon, and be prepared to take orders, hear complaints and adopt measures to improve the delivery service.

A Speck of War on the Coast.

There is a war-cloud on the horizon at San Pedro. The Steamship Company built a fence across the road by which San Pedro is reached, and some one took the liberty of destroying the fence. The company is endeavoring to find out who did the work and will probably prosecute the man when found. It is said that two women started with axes to raise the blockade, when Capt. Janes took the axe from them and did the work, declaring that he would allow no woman to do that which he would not dare to do.

A Female Jehu.

A woman was seen yesterday afternoon in the vicinity of the new depot driving in a light buggy at a most reckless rate of speed, and in a manner which attracted the general attention of bystanders. In a few minutes she ran into a Chinese wagon, which was moving slowly along, and one wheel of her buggy was instantly smashed. John's vehicle was uninjured, and the woman is probably by this time cured of her passion for fast driving.

Calico Mines.

San Bernardino Index.]

That excellent mine, the Silver King, of Calico, yesterday declared another monthly dividend of $600 per share, a total of about $8,000. The total product for the month ending October 15th was $31,600, but on account of the freight contractor being unable to haul the desired amount of ore from the mines the mill was only run eighteen days. Nadeau has put on eighty new mules on the line, and no more stoppages are expected from that source. The Oro Grande Company now own eight-twelfths of all the stock, having purchased the interests of Messrs. Tom Warden and Frank Meachan.

Another Good Indian.

San Bernardino Index.]

A young Chimehueva Indian came in town yesterday, and at the usual time in the evening returned to his couch of blankets on the hard ground, in the vicinity of Mathew's flouring mill, east of town. This morning the noble redman was found to have passed to the happy hunting ground. Coroner Rice examined the body, but finding no marks of violence concluded that he came to his death from natural causes and dispensed with an inquest.

The grand jury of Baltimore county has concluded its investigation of the Tivoli disaster, wherein the lives of sixty-five excursionists were lost. They find a presentment of manslaughter against the proprietor of the Tivoli grounds, and also against the lessee.

At Craigsville, W. Va., on the 13th, the wife of George W. Mannin, a farmer, who had recently given birth to a child, was beaten to death, together with her babe, by unknown persons, after which the bedclothes were set on [illegible] the bodies almost consumed.

THE SANCHEZ PROPERTY.

Its Purchase by an English Clergyman for $16,000.

The father of Mr. W. J. Kingsbury, an attorney of this city, is the immigration agent of the Southern Pacific Railroad in Europe. This gentleman finds that the most lively interest is taken by capitalists, especially in England, in all matters concerning Southern California, and Mr. Kingsbury, of this city, has availed himself of this interest to do considerable real estate business. He mentions a circumstance in connection with one of his latest and largest sales, effected about the first of this month, which shows what almost unlimited confidence some English people have in Southern California, and also in men who are entire strangers to them. A month or two ago, Mr. Kingsbury, Sr., received a letter from a wealthy English clergyman inquiring for some desirable Southern California property, and he immediately forwarded the letter to his son, who, after looking around for a while, picked out the Sanchez property up the river as best meeting the rector's requirements. Accordingly, he sent to him a full description of the land, its improvements, capabilities, title, etc., and the price for which it could be purchased, viz., sixteen thousand dollars in cash. The reverend gentleman, whose name is Henshall, concluded it was just what he wanted, cabled his acceptance of the proposition, and followed with a remittance covering the whole amount. He had not had, previous to this transaction, the slightest acquaintance with either of the gentlemen, and his action shows a notable confidence in the men and the country. Rev. Mr. Henshall will arrive in this city next month, take charge of his property, and make many improvements thereon.

The Providence Fire.

San Bernardino Index.]

A fire occurred at Providence Mountain last night, destroying Poppett & Clark's saloon building with a large stock of liquors. The building and stock were insured in the London, Liverpool & Globe for $4800. Mr. Clark will arrive to-morrow with full particulars of the fire. We are indebted to Roe & Story, insurance agents, for what particulars we have.

The bargains offered by Bright are simply unparalleled. He has just received a new stock of goods, and as will be seen by his advertisement will offer them at greatly reduced prices.

Electro Magnetic and Hygienic INSTITUTE!

119 SOUTH MAIN ST.,

Between Second and Third Streets

DR. E. ROBBINS, the celebrated Australian Electro-Magnetic Healer, after several years experience in the Australian colonies, San Francisco, Salt Lake City, Denver, and several months in this city, has decided to permanently locate here, where he has performed so many wonderful cures without the aid of medicine. His rooms are crowded daily with patients anxious to get the benefit of his power over so-called incurable diseases. Dr. Robbins is patronized by some of our leading citizens. He also diagnoses diseases without explanation from the patients, free of charge, and has fitted up his Institute at considerable expense with Dr. Hoffmann & Palmer's celebrated Electro-Therapeutic Bath, which is pronounced by eminent physicians to be the greatest discovery in medical science of modern times; also other medicated baths, with the latest improvements in electrical instruments for administering Faradic, Galvanic and static electricity. aug8-3m
